

Product Descriptions

100 Words

Autodesk® Infrastructure Map Server 2012 is mapping software that helps architecture, engineering, and construction professionals publish and share CAD, GIS, and other infrastructure asset information quickly and cost-effectively via the web. Well-suited for utilities, transportation agencies, governments, and consultants, Autodesk Infrastructure Map Server helps organizations provide multiple stakeholders, including the mobile workforce and the public, with convenient, on-demand access to infrastructure information via web-based dashboards, reports, and maps. Easy to use and deploy, Autodesk Infrastructure Map Server includes templates that enable users to more quickly deliver information from AutoCAD® Map 3D 2012 software—part of the Autodesk portfolio of Building Information Modeling solutions for infrastructure—to the web.

50 Words
